

VOYAGER OF THE MONTH

This month's Voyager is Toni Gilbert, a very special woman who lives in the state of Oregon. Why is she so special? She's a nurse, a holistic nurse who does Readings way more than she takes people's temperature (in fact, the cards may show more about a person).

She specializes in archetypal tarot and has written a book entitled, "Messages From The Archetypes." You can order this and read all about Toni at www.tonigilbert.com. This website is a great model for all of you who want to establish yourself online with your practice.

If you want to get a great "read" on the Ten of Crystals "Delusion" card go to Toni's writing in Alternative Journal of Nursing at www.altjn.com

What a healer and seer!
